IGNOU University

BA, English

2014 - 2019

ANTONY JOSEPH

Currently working as a WordPress developer, I have expertise in using Elementor, WP Bakery, and essential plugins to build and customize websites. I am skilled in integrating WooCommerce for e-commerce functionality and creating responsive designs to ensure a seamless user experience across various devices. Alongside web development, I create AI-driven video content for YouTube, using modern AI tools to produce engaging, visually rich content. My focus is on leveraging these tools to deliver high-quality, functional websites and content tailored to client and audience needs.

WORK EXPERIENCE

WordPress Developer

Aug 2024 – Aug 2025

Cloud7 Branding Studio, Cochin

Working as a WordPress Developer at Cloud7 Branding Studio, where I have successfully developed 10+ projects using Astra themes, Divi themes, and the Wix platform. My role involves creating responsive web pages that ensure an optimal user experience across different devices. I specialize in customizing default themes to meet specific client requirements, implementing custom code for additional functionality, and utilizing various plugins to enhance website performance and usability. I focus on delivering high-quality, customized websites tailored to client needs.

WordPress Developer

May 2024 – Aug 2024

LSDP Productions, Kadavanthra, Cochin

Worked as a WordPress developer at LSD Productions, where I successfully developed websites using Elementor and various essential plugins. My role involved creating responsive web pages that ensure an optimal user experience across different devices, delivering high-quality, customized websites that meet the specific needs of clients.

YouTube Channel Content Creator

Present

Independent / Self-employed

Create and manage faith-themed and motivational YouTube content across two channels, one in English and one in Tamil. Familiar with a full AI content production pipeline — using tools such as Kling, Runway Gen-4, Hailuo, and Pika for AI video generation, Nano Banana for AI image generation, and CapCut for final video assembly and editing. Experienced in scripting, prompt engineering for AI video/image tools, and end-to-end channel management.
